

MULTIBRAND LOGIN CUSTOMER FIRST

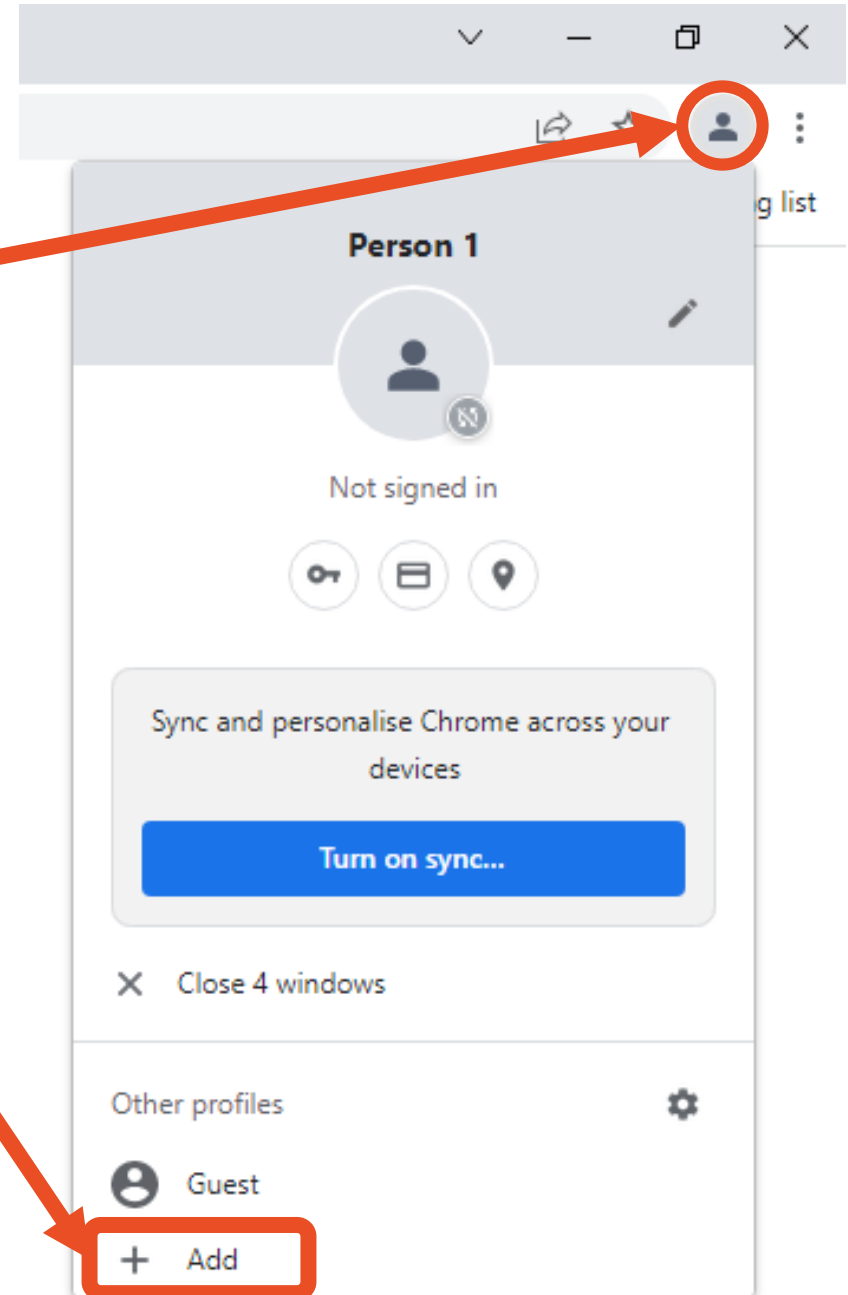

Step 1

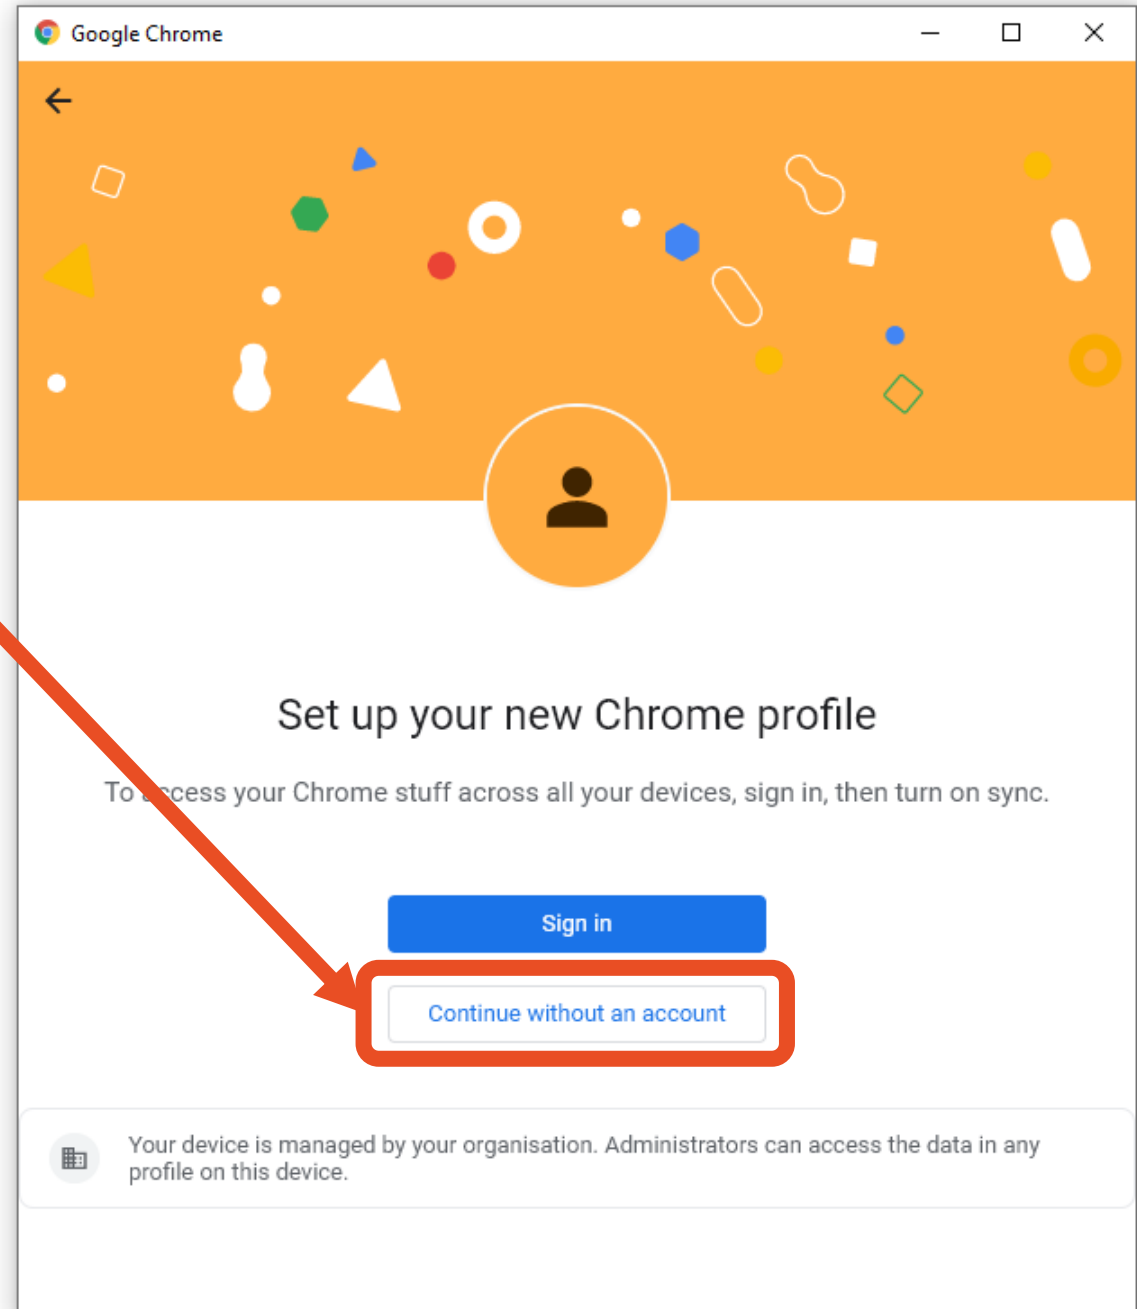

Open a new google chrome browser and click on the user icon in the top right hand corner of your window.

Step 2

Click add profile at the bottom of the user menu.

Step 3
Click on the continue without an account option.

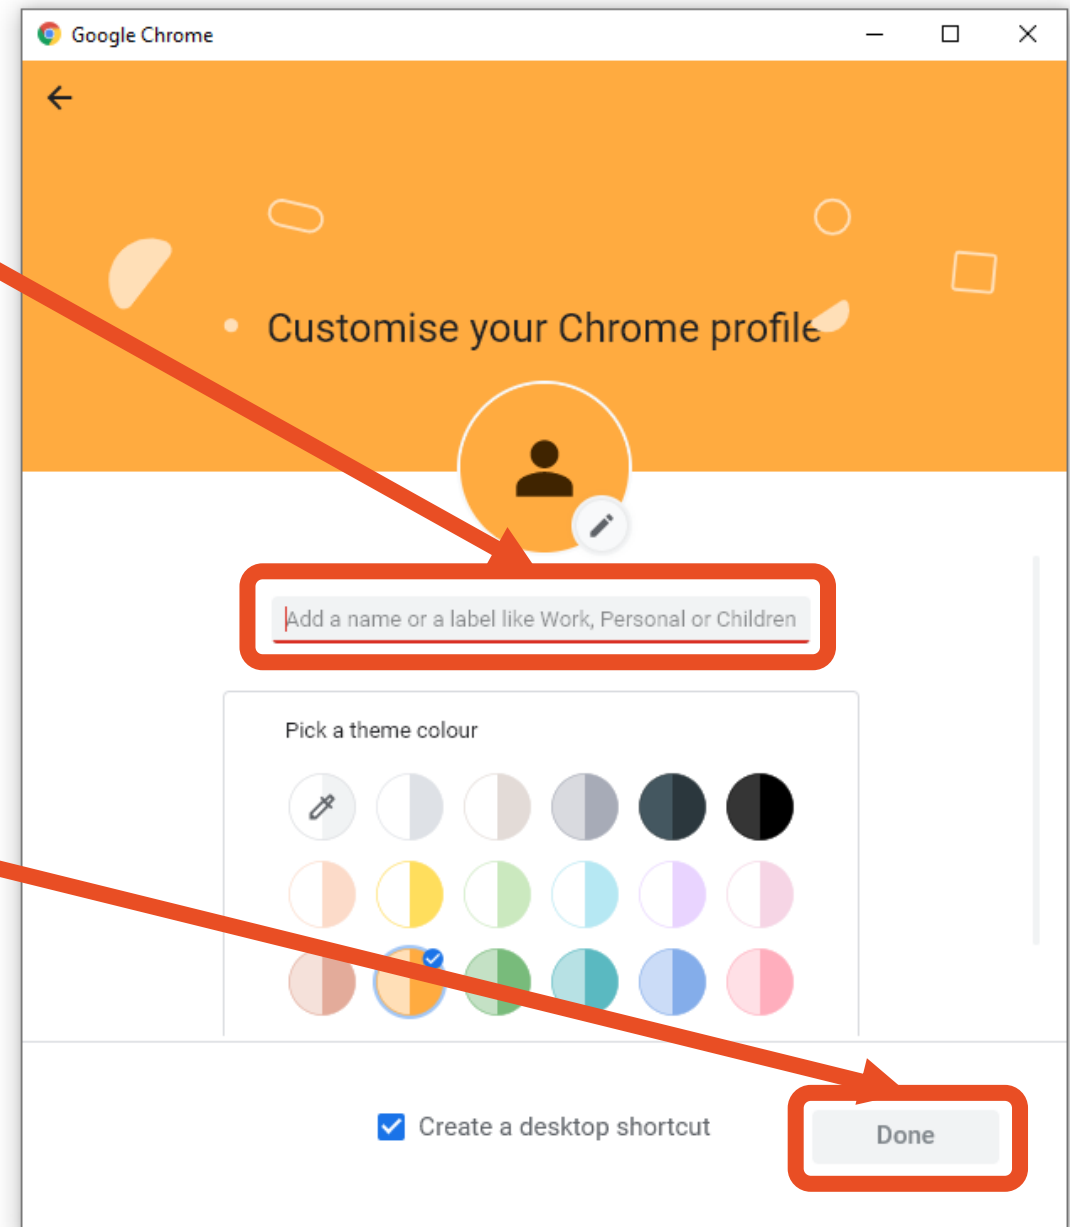

Step 4

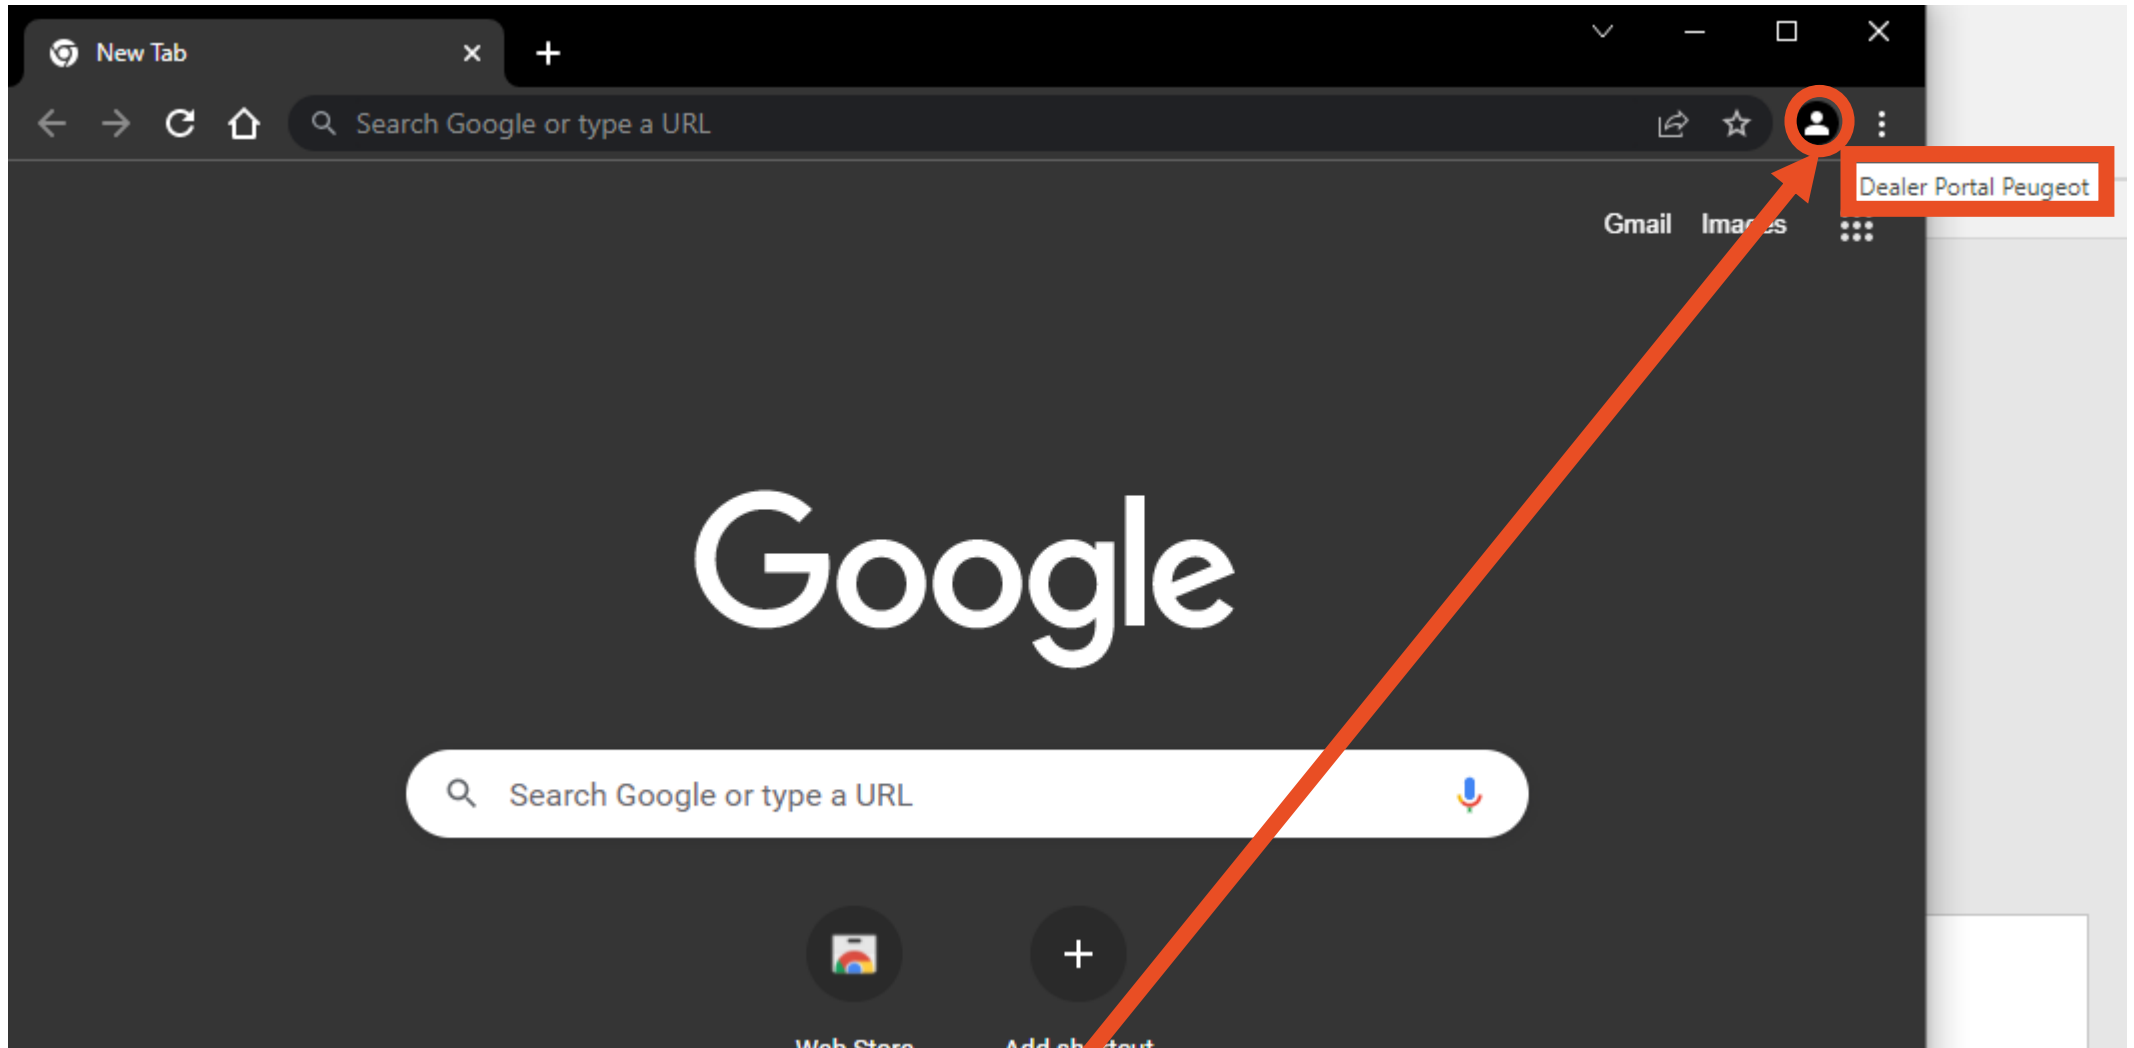

**Add a name for the brand
you are wishing to set up**

e.g Dealer Portal Peugeot

Step 5

**Click done to save this
profile**

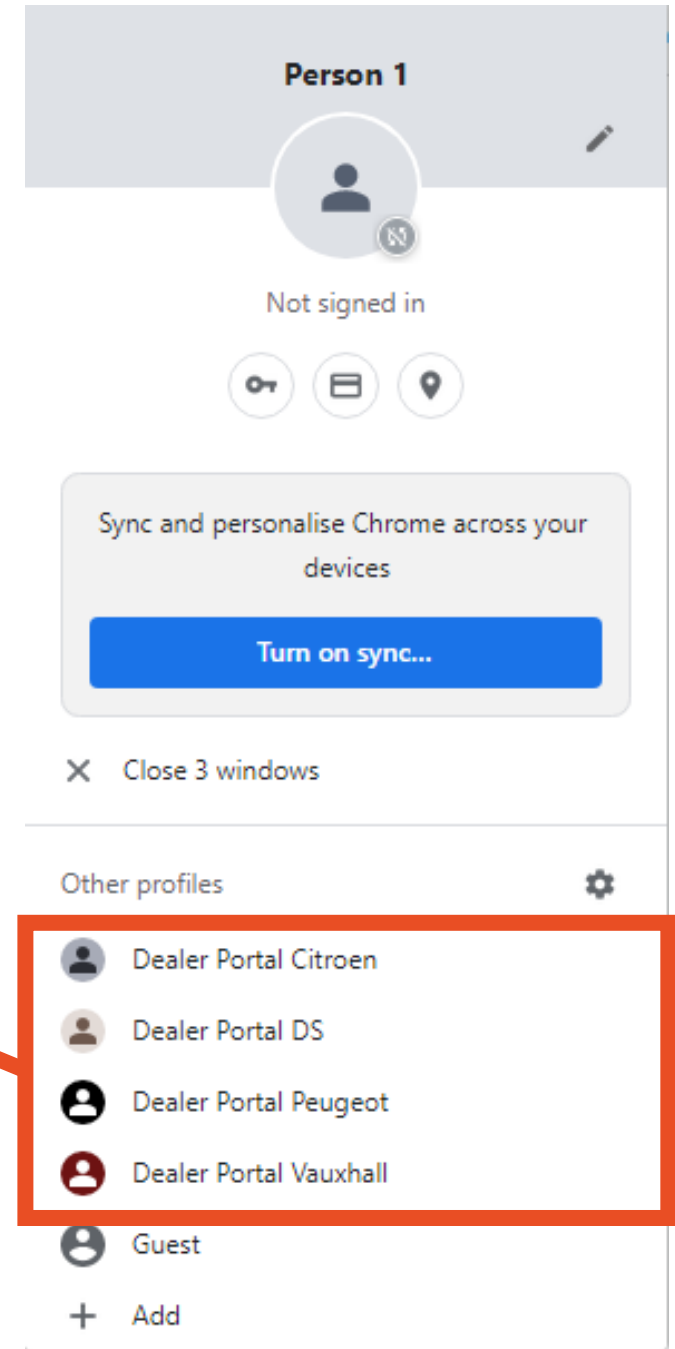

Step 6

When you hover over the user icon it will pop up with the user name

Step 7

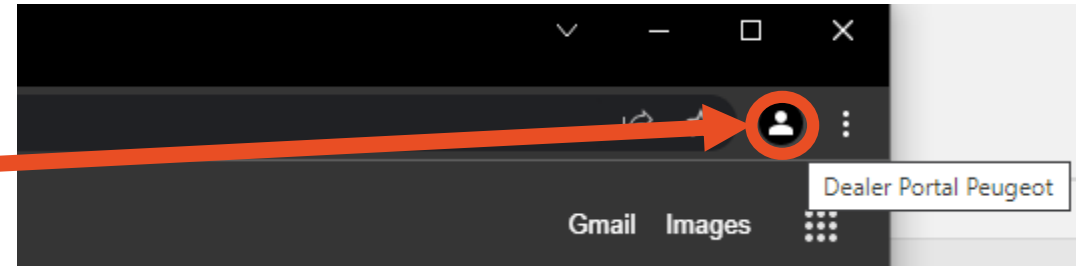

You will then need to re-complete step 1-6 for each of the brands relevant to your multibrand retailer

The screenshot shows a Chrome profile management interface. At the top, it displays 'Person 1' with a profile picture icon and a pencil icon for editing. Below this, it says 'Not signed in' and shows icons for a key, a card, and a location pin. A blue button labeled 'Turn on sync...' is visible. Below the button, there is a 'Close 3 windows' notification. The 'Other profiles' section is highlighted with an orange box and contains a list of profiles: 'Dealer Portal Citroen', 'Dealer Portal DS', 'Dealer Portal Peugeot', and 'Dealer Portal Vauxhall'. Below these are 'Guest' and 'Add' options.

Step 8

To switch between brand profiles click here

These steps will enable you to have one session per brand and user Id
